URSODEOXYCHOLIC ACID

er-so-dee-ox-ee-kol-ik ass-id

What does it do?

Ursodeoxycholic acid is a bile acid which is produced naturally by the body. It is used to treat liver and bile duct problems.

Before you start

- Tell your doctor if you are pregnant, planning to become pregnant, or breastfeeding.

How should you take it?

Take *ursodeoxycholic acid* regularly as directed with a glass of water.

What if you forget a dose?

If it is nearly time for your next dose, skip the missed dose and take your next dose at the usual time. Otherwise, take the missed dose as soon as you remember. Do not take two doses at the same time.

Can you take other medicines?

Some medicines available without a prescription may react with *ursodeoxycholic acid* including:

- antacids (e.g. Mylanta®) - do not take these within two hours of taking *ursodeoxycholic acid*.

Tell your pharmacist or doctor about all medicines or treatments that you may be taking, including vitamins, herbal products or recreational drugs.

What side effects might you notice?

Side Effects	Recommended action
Nausea, vomiting, diarrhoea	Tell your doctor if troublesome

If you notice any other effects, discuss them with your doctor or pharmacist.

Other information:

- You may need regular blood tests while taking *ursodeoxycholic acid* to check your liver.
